A 1/4 INCH VENT PLUG IS LOCATED IN THE FILTER HOUSING.

NOTES:
1 TSH - TEMPERATURE SWITCH HIGH
2 PER NFPA THE SYSTEM WILL REQUIRE A SOURCE VALVE (SUPPLIED BY OTHERS).
NOTE:
A 1/4 INCH VENT PLUG IS LOCATED IN THE FILTER HOUSING.

SOURCE VALVE SEE NOTE 2

NOTES:
1 TSH - TEMPERATURE SWITCH HIGH
2 PER NFPA THE SYSTEM WILL REQUIRE A SOURCE VALVE SUPPLIED BY OTHERS.

SYMBOL LEGEND

The image contains a flow diagram with various components labeled, such as vacuum pumps, filters, sight gauges, and source valves. The diagram includes notes for temperature switch high and source valve requirements. Additionally, there is a note about a vent plug located in the filter housing. The legend provides symbols for different components and their functions.
